### **1. NATURE OF OPERATIONS AND GOING CONCERN**

New Oroperu Resources Inc. (the "Company") was incorporated under the laws of British Columbia on October 12, 1994. The Company is in the business of acquiring and exploring mineral properties in Peru and Canada and has not yet determined whether its properties contain ore reserves that are economically recoverable. The Company is listed on the TSX Venture Exchange and is a reporting issuer in Ontario, Alberta and British Columbia.

The Company is not generating any operating revenue, has never paid any dividends and is unlikely to pay dividends or generate earnings from operations in the immediate or foreseeable future. As at September 30, 2012 the Company has an accumulated deficit of \$26,248,570 (2011 - \$25,851,809) and incurred a loss of \$255,885 (2011 - \$510,057) during the nine months ended September 30, 2012. The continuation of the Company as a going concern is dependent upon the ability of the Company to obtain the necessary equity financing to continue operations and to determine the existence and successful exploitation of economically recoverable reserves in its exploration and evaluation properties, confirmation of the Company's interests in the underlying properties and the attainment of profitable operations, or realize proceeds from their sale.

The Company is dependent on raising funds through the issuance of shares and/or obtaining debt financing. Management believes that additional financing is available and may be sourced in time to allow the Company to continue its current planned activities in the normal course. There can, however, be no assurance the Company will be able to raise funds in the near future.

The Company has been receiving a net annual advance royalty payment of \$175,000 in connection with the Tres Cruces Project in Peru (note 4a). Although it is anticipated that this annual payment will continue under the related option agreement, there is no certainty that the optionee will continue to maintain the option.

The head office and principal address of the Company is situated at Suite 320 – 800 West Pender Street, Vancouver, British Columbia, Canada, V6C 2V6.

### **2. BASIS OF PRESENTATION**

#### **a) Statement of Compliance**

These condensed interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34, *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

#### **b) Approval of Consolidated Financial Statements**

The consolidated financial statements of the Company for the nine months ended September 30, 2012 were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on November 22, 2012.

#### **c) Adoption of New and Revised Standards and Interpretations**

The IASB issued a number of new and revised IAS, IFRS, amendments and related interpretations which are effective for the Company's financial years beginning on or after January 1, 2012. For the purpose of preparing and presenting the financial information for the relevant periods, the Company has consistently adopted all of these new standards for the relevant reporting periods.

At the date of authorization of these financial statements, the IASB and IFRS Interpretations Committee ("IFRIC") have issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods.

## NEW OROPERU RESOURCES INC.

Notes to Condensed Consolidated Financial Statements  
(Expressed in US dollars)  
For the nine months ended September 30, 2012 and 2011  
(Prepared by Management)

---

- IFRS 9, *Financial Instruments: Classification and Measurement* – effective for annual periods beginning on or after January 1, 2015, with early adoption permitted, introduces new requirements for the classification and measurement of financial instruments.
- IFRS 10, *Consolidated Financial Statements* – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.
- IFRS 11, *Joint Arrangements* – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form.
- IFRS 12, *Disclosure of Interests in Other Entities* – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with its interests in other entities and the effects of those interests on its financial position, financial performance and cash flows.
- IFRS 13, *Fair Value Measurement* – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides guidance on the measurement of fair value and related disclosures through a fair value hierarchy.
- IAS 1, (Amendment) *Presentation of Financial Statements* – effective for annual periods beginning on or after July 1, 2012, includes amendments regarding presentation of items of other comprehensive income.
- IAS 19, (Amendment) *Employee Benefits* – effective for annual periods beginning on or after January 1, 2013, revises recognition and measurement of post-employment benefits.
- IAS 27, (Amendment) *Separate Financial Statements* – effective for annual periods beginning on or after January 1, 2013, prescribes the accounting for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements.
- IAS 28, (Amendment) *Investments in Associates and Joint Ventures* – effective for annual periods beginning on or after January 1, 2013, prescribes the accounting for investments in associates and sets out the requirements for investments in associates and joint ventures.
- IFRIC 20, *Stripping Costs in the Production Phase of a Producing Mine* – effective for annual periods beginning on or after January 1, 2013, prescribes the accounting for stripping costs in the production of a surface mine.

The Company has not early-adopted these standards, amendments and interpretations; however, the Company is currently assessing what impact the application of these standards or amendments will have on the consolidated financial statements of the Company.

(Prepared by Management)

### 3. SIGNIFICANT ACCOUNTING POLICIES

The condensed consolidated financial statements include the accounts of the Company and its controlled entities. Details of controlled entities are as follows:

	Country of incorporation	Percentage owned	
		September 30, 2012	September 30, 2011
S.A. Mining Ventures Ltd.	Bahamas	100%	100%
Minera Angelica S.A.C.	Peru	100%	100%
Angelica Mining Inc.	Bahamas	100%	100%
T.C. Mining Inc.	Bahamas	100%	100%
687211 B.C. Ltd.	Canada (B.C.)	100%	100%
Aurifera Tres Cruces S.A.	Peru	100%	100%

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's annual financial statements for the year ended December 31, 2011.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates where management's judgment is applied include asset valuation, asset retirement obligations, income taxes, contingent liabilities, share-based payments and ability to continue as a going concern. Actual results may differ from those estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of revision and further periods if the review affects both current and future periods.

---

### (a) Tres Cruces Project, Peru

In September 2003, the Company entered into an option agreement with Minera Barrick Misquichilca S.A. ("Barrick") for Barrick to acquire up to a 70% interest in Aurifera subject to:

- (i) Barrick incurring \$1,700,000 in exploration expenditures by September 30, 2005 (incurred);
- (ii) Barrick making payment to the Company of: \$400,000 on execution of the option agreement (paid); \$200,000 per year until completion of the \$1,700,000 in exploration expenditures (paid); and \$250,000 as advance royalty (\$175,000, net of Peruvian withholding taxes) per year after completion of the \$1,700,000 in exploration expenditures; and
- (iii) Barrick making a production decision on or before December 31, 2020.

All exploration expenditures will be payable by Barrick until a production decision is made. Upon making a production decision, Barrick must pay the Company a \$1,000,000 advance royalty and, following such production decision, the Company, through Aurifera, would retain a 30% interest subject to certain payback provisions and would also retain a 2% royalty interest.

### (b) Estrella Project, Peru

In January 2006, the Company acquired 100% of the 1,800-hectare Estrella Project in Peru. In 2007, the project's value was written down by \$390,688 as a result of an asset impairment review by management. There was no exploration work done on the property in 2011 or 2012 and its carrying value at September 30, 2012 is \$1.

### (c) Other Exploration and Evaluation Properties

The Company owns one mineral lease located in Ontario, Canada, which has previously been written down to a nominal value of \$1.

In the nine months ended September 30, 2012 the Company incurred aggregate expenses of \$24,493 (2011 - \$36,011) for property management, administration and taxes on its Peru mineral properties. The Company also recorded a \$42,047 write-off of accounts payable in regard to an expense reversal of accrued property maintenance costs for 5 mineral claims in Peru that have been abandoned.

## 5. TRADE PAYABLES AND ACCRUED LIABILITIES

<i>As at</i>	September 30, 2012	December 31, 2011
Trade payables	\$ 877	\$ 45,698
Accrued liabilities	11,500	27,000
	<b>\$ 12,377</b>	<b>\$ 72,698</b>

### 6. SHARE CAPITAL

#### a) Authorized

Unlimited number of common shares without par value

#### b) Stock Options

The Company has a stock option plan that authorizes the Board of Directors to grant options for the purchase of up to 3,100,714 common shares pursuant to a 20% fixed stock option plan. Options granted under the plan vest over a period of 18 months from the date of grant.

Stock options to purchase common shares have been granted to directors, employees and consultants at exercise prices determined by reference to the market value on the date of grant.

A summary of the status of the Company's stock options at September 30, 2012 and December 31, 2011 and changes during the periods is as follows:

	Nine months ended September 30, 2012		Year ended December 31, 2011	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
Outstanding, beginning of year	2,350,000	\$ 0.52	3,020,000	\$ 0.48
Granted	-	-	-	-
Expired	(1,085,000)	\$0.55	(520,000)	\$ 0.38
Exercised	-	-	(150,000)	\$ 0.38
<b>Options outstanding</b>	<b>1,265,000</b>	<b>\$ 0.48</b>	<b>2,350,000</b>	<b>\$ 0.51</b>
<b>Options exercisable</b>	<b>1,265,000</b>	<b>\$ 0.48</b>	<b>2,050,000</b>	<b>\$ 0.52</b>

Stock options outstanding as at September 30, 2012 are as follows:

Number of Options		Exercise Price	Expiry Date	Weighted Average Contractual Life of Options Remaining in Years
Outstanding	Exercisable			
65,000	65,000	\$1.00	January 29, 2013	0.33
1,200,000	1,200,000	\$0.45	October 6, 2015	3.00
1,265,000	1,265,000			2.84

## NEW OROPERU RESOURCES INC.

Notes to Condensed Consolidated Financial Statements  
(Expressed in US dollars)  
For the nine months ended September 30, 2012 and 2011  
(Prepared by Management)

Stock options outstanding as at December 31, 2011 are as follows:

Number of Options		Exercise Price	Expiry Date	Weighted Average Contractual Life of Options Remaining in Years
Outstanding	Exercisable			
1,085,000	1,085,000	\$0.55	June 29, 2012	0.24
65,000	65,000	\$1.00	January 29, 2013	0.83
1,200,000	900,000	\$0.45	October 6, 2015	3.52
2,350,000	2,050,000			1.93

### c) Share-based Payments and Stock Option Reserves

In the nine months ended September 30, 2012 the Company recognized the cost of share-based payments of \$17,050 (2011 - \$185,231) related to stock options which were granted in 2010. For the nine months ended September 30, 2012 share-based amounts of \$2,384 (2011 - \$10,777) related to consulting fees and \$14,666 (2011 - \$174,454) related to general and administration were added to share-based payments reserve for the period.

For the 1,200,000 stock options granted in October 2010, the fair value of each option granted to employees was estimated as at the date of the grant using the Black-Scholes option pricing model with the following weighted average assumptions and resulting fair value:

Risk-free interest rate	1.76%
Expected life of the options in years	5
Annualized volatility	93.58%
Dividend rate	-
Grant date fair value	\$0.35

## 7. RELATED PARTY TRANSACTIONS

Key management personnel compensation consists of the Chief Executive Officer and Chief Financial Officer. Aggregate compensation consists of the following:

<i>For the nine months ended September 30</i>	<b>2012</b>		2011	
Short term employee benefits	\$	<b>165,885</b>	\$	173,391
Share-based payments		<b>15,856</b>		145,317
	\$	<b>181,741</b>	\$	318,708

## 8. MANAGEMENT OF CAPITAL

The Company's common shares and stock options are considered to be capital under management. There has been no change in the nature of the Company's capital structure during the quarter ended September 30, 2012. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of mineral properties and to maintain a flexible capital structure at an acceptable risk.

## **NEW OROPERU RESOURCES INC.**

**Notes to Condensed Consolidated Financial Statements**  
**(Expressed in US dollars)**  
**For the nine months ended September 30, 2012 and 2011**  
**(Prepared by Management)**

---

The Board of Directors manages the capital structure and makes adjustments to its plan based on economic and market conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue debt and may acquire or dispose of assets.

In order to facilitate the management of capital, the Company prepares expenditure budgets that are updated as necessary depending on factors determined by the Board of Directors.

There were no changes in the Company's approach to management of capital during the quarter ended September 30, 2012.

The Company is not subject to any external capital restrictions.

### **9. FINANCIAL INSTRUMENTS**

The Company has classified its cash and cash equivalents as held-for-trading; and trade payable and accrued liabilities, as other financial liabilities.

#### *Fair value*

The carrying values trade payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

The Company's risk exposure and the impact on the Company's financial instruments are as follows:

#### **a) Credit Risk**

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

The Company is exposed to concentration of credit risk with respect to its cash and cash equivalents; however, the risk is minimized as cash and cash equivalents are placed with major Canadian financial institutions.

The Company's concentration of credit risk and maximum exposure thereto is \$54,636 as at September 30, 2012.

#### **b) Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient assets and cash flows to meet liabilities when due. As at September 30, 2012 the Company has working capital of \$73,403. As at September 30, 2012 the Company has trade payables and accrued liabilities of \$12,377, which are due in the normal course of business.

#### **c) Market Risk**

Market risk is the risk that the fair value of or future cash flows from the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign currency rates and equity prices. Management closely monitors individual interest rate and foreign currency movements to determine the appropriate course of action to be taken by the Company.

##### **(i) Interest rate risk**

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company is not exposed to significant interest rate risk.

## NEW OROPERU RESOURCES INC.

### Notes to Condensed Consolidated Financial Statements (Expressed in US dollars) For the nine months ended September 30, 2012 and 2011 (Prepared by Management)

#### (ii) Foreign currency risk

As at September 30, 2012 the majority of the Company's cash and cash equivalents and trade payables and accrued liabilities are denominated in US dollars, the value of which is subject to fluctuation in exchange rates. Cash held in Canada and Peru in US dollars at September 30, 2012 amounted to \$45,208 (2011 - \$173,794).

The Company's net foreign currency exposure as at September 30, 2012 is as follows:

Cash and cash equivalents	\$	8,660
Trade payables and accrued liabilities		(12,052)
Net foreign exposure	\$	(3,392)

The Company does not utilize derivatives or other techniques to manage foreign currency risk.

Based on the above net foreign currency exposure as at September 30, 2012 and assuming all other variables remain constant, a 10% weakening or strengthening of the US dollar against the Canadian dollar would result in an increase/decrease of \$866 in the Company's loss.

#### (iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to any significant price risk.

## 10. SEGMENTED DISCLOSURE

The Company has one operating segment, mineral exploration and development. The Company's assets by geographical location at September 30, 2012 and 2011 are as follows:

<i>As at</i>	2012		2011	
Canada	\$	85,162	\$	321,587
Peru		569,964		716,599
Total	\$	655,126	\$	1,038,186

The Company's operating losses by geographical location at September 30, 2012 and 2011 are as follows:

<i>For the ninemonths ended September 30</i>	2012		2011	
Canada	\$	(318,949)	\$	(517,109)
Peru		63,064		7,052
Total	\$	(255,885)	\$	(510,057)

## 11. SUBSEQUENT EVENT

On October 26, 2012, the Company granted an aggregate of 2,000,000 incentive stock options to directors, officers and employees of the Company, for the purchase up to an aggregate of 2,000,000 common shares of the Company at an exercise price of \$0.50 per share for a period of five years, subject to regulatory approval.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

### General

The information in this Management's Discussion and Analysis, or MD&A, is intended to assist the reader in the understanding and assessment of the trends and significant changes in the results of operations and financial conditions of New Oroperu Resources Inc. (the "Company" or "New Oroperu"). This MD&A should be read in conjunction with the unaudited interim financial statements of the Company, including the notes thereto, for the nine months ended September 30, 2012 and the audited financial statements of the Company for the year ended December 31, 2011 and the MD&A of such financial statements, and other information relating to the Company on file with the Canadian provincial securities regulatory authorities on SEDAR at [www.sedar.com](http://www.sedar.com). The Company's interim financial statements for the nine months ended September 30, 2012 and the annual audited financial statements for the year ended December 31, 2011 have been prepared in accordance with International Financial Reporting Standards ("IFRS"). This MD&A has taken into account information available up to and including November 22, 2012.

New Oroperu is an exploration stage company engaged in the identification, evaluation, acquisition and exploration primarily of gold properties in Peru. The Company is a reporting issuer in British Columbia, Alberta and Ontario and trades on the TSX Venture Exchange under the symbol ORO.

This MD&A contains forward-looking statements. Please refer to the cautionary language at the end of this document.

### Company Overview

In October 2012, the Company announced of a NI 43-101 technical report which updated the mineral resource estimate on Oroperu's Tres Cruces property in Peru. This estimate is for 2.6 million oz. of gold in the measured and indicated category at a 0.6 g/t gold cut-off (see news release dated October 16, 2012). A complete copy of the NI 43-101 report is available at [www.sedar.com](http://www.sedar.com) or through the Company's website at [www.orooperu.com](http://www.orooperu.com).

This estimate is based on 359 drill holes and nearly 74,000 meters of drilling. It represents a substantial increase from the earlier historical resource of 1.7 million oz of gold. There is also an inferred resource in areas immediately adjacent to the deposit and at depth which may be converted to a higher category with additional drilling. The gold mineralized system is open to depth with some drill holes bottoming in mineralization. Exploration is warranted to further define the full extent of mineralization.

Oroperu optioned 70% of its 100% interest in the Company's wholly owned subsidiary Aurifera Tres Cruces S.A. The Tres Cruces project is currently being further explored under the terms of an option agreement with Minera Barrick Misquichilca S.A. ("Barrick"), the operating Peruvian subsidiary of Barrick Gold Corporation. Barrick may earn a 70% interest in Aurifera subject to an underlying 1.5% royalty and 2% royalty to the Company.

Nearby the Tres Cruces project, about 10 km to the north, Barrick invested an estimated \$340 million in the development of its Lagunas Norte deposit where production started in June 2005. Since then the Lagunas Norte project has reported several years of production greater than 1 million oz. of gold per year and produced 763,000 oz. gold in 2011 at a cash cost of \$269/oz. Barrick reports proven and probable reserves of 6.2 million oz. gold at December 31, 2011. Barrick is also evaluating its own Lagunas Norte sulphide mineralization as part of a pre-feasibility study.

The Company believes that the proximal location of the Tres Cruces project to Barrick's operations would enhance the economics for the development of the Tres Cruces deposit.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

The Company's total cash position at September 30, 2012 was \$54,636 (2011– \$293,429) and although all the proposed exploration expenditures on the Tres Cruces project are being covered by Barrick under its option agreement with the Company, the Company's current cash position may not be sufficient to meet its projected cash requirements for the year. New Oroperu's working capital position at September 30, 2012 was \$73,403 (2011- \$295,676).

### Outlook

The Company's Tres Cruces project is dependent on Barrick's plans and decisions relating to its option and ultimately to advance the project through to production. The Company recently announced a NI 43-101 compliant 2.6 million ounce gold resource estimate (cut-off 0.6 g/t gold) is a milestone for the Company. Barrick has maintained the option since 2003, and although there is no certainty, New Oroperu expects that Barrick will continue to maintain its option and advance the project forward to a production decision.

### Tres Cruces Project

New Oroperu recently completed NI 43-101 compliant technical report on its Tres Cruces Project located in North Central Peru. The report, prepared by Peter A. Lacroix, P. Eng. of Lacroix & Associates, updated mineral resource estimates for Tres Cruces based on all available information to date.

According to the report, the Tres Cruces mineral resource is estimated to contain 2.6 million oz. of gold at a 0.6 g/t Au cut-off in the measured and indicated category.

The estimates are based on a three dimensional (3D) block model with grade interpolation domains created using lithology and alteration models. Grades were estimated using ordinary kriging. A grade envelope created by indicator kriging at a 0.2 g/t gold cut-off was used to constrain the estimate which is tabulated below.

#### MINERAL RESOURCE ESTIMATES, 0.6 G/T AU CUT-OFF New Oroperu Resources Inc. – Tres Cruces Project

	Kt	g/t Au	Koz Au
Measured	4,961	1.52	242
<i>Indicated</i>	<i>61,068</i>	<i>1.20</i>	<i>2,365</i>
Total Measured + Indicated	66,029	1.23	2,608
Inferred	19,552	0.97	<b>611</b>

#### Notes:

1. CIM definitions were followed for Mineral Resources.
2. Mineral Resources are reported at a cut-off grade of 0.6 g/t Au.
3. Mineral Resources are estimated using an average gold price of US\$1,500 per ounce and metallurgical recovery of 82% of the contained gold.
4. Excludes Barrick claims.
5. Totals may not agree due to rounding.

The Tres Cruces project is a grass roots discovery made by the Company. New Oroperu has an agreement with Barrick granting them an option to acquire up to a 70% interest in Aurifera Tres Cruces S.A., the subsidiary that holds the Tres Cruces project. Barrick's cost to maintain its option on the Tres Cruces property is \$250,000 a year. The annual payment is subject to a 30% Peruvian withholding tax. All exploration expenditures deemed necessary by Barrick to make a production decision will be paid by Barrick at no cost to the Company. Following a production decision, the Company would retain a 30%

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

fully financed interest in Aurifera, a 2% royalty interest and receive a US\$1 million advance royalty payment.

Barrick has completed certain engineering and piezometric studies and continues to monitor its environmental work required for the permitting process. No drilling was completed to date, in 2012.

### Other Mineral Properties

The Company owns 100% of the Estrella property in central Peru. New Oroperu also has one mineral lease located in Ontario, Canada and it continues to maintain its rights on this property. No field work has been conducted during the past year.

The Company will continue to evaluate other precious metals properties in Peru and elsewhere.

### Results of Operations

The Company's net loss for the nine months ended September 30, 2012 was \$255,885 (2011-\$510,057). The Company incurred expenditures of \$25,827 (2011 - \$40,160) on mineral properties, which consisted of property maintenance and taxes, and direct administration and management.

In the nine months ended September 30, 2012 the Company kept the majority of its cash in U.S. dollars and incurred a foreign exchange gain of \$9,646 (2011-\$4,544) as a result of fluctuations in the Canadian dollar and Peruvian sole.

For the nine months ended September 30, 2012, operating expenses were \$291,628 (2011-\$500,985), which included \$17,050 (2011-\$185,231) in non-cash share-based payments. Share-based payments for the period were attributed as to \$14,666 (2011-\$174,454) to general and administrative expenses and \$2,384 (\$2011-\$10,777) to consulting fees.

The Company's operating expenses were consistent with the operating losses of the preceding year.

Barrick is continuing to cover project costs related to exploration and maintenance of the Tres Cruces property, as per the terms of its exploration agreement with the Company.

### Summary of Quarterly Results

Results for the eight most recent quarters ending with the last quarter ending September 30, 2012:

<b>For the quarterly periods ending</b>	<b>September 30 2012</b>	<b>June 30 2012</b>	<b>March 31 2012</b>	<b>December 31 2011</b>
Loss for the quarter	\$89,702	\$43,569	\$ 122,614	\$ 140,876
Basic loss per share	\$0.01	\$0.00	\$ 0.01	\$ 0.01
<b>For the quarterly periods ending</b>	<b>September 30 2011</b>	<b>June 30 2011</b>	<b>March 31 2011</b>	<b>December 31 2010</b>
Loss for the period	\$ 164,158	\$ 165,826	\$ 180,073	\$ 290,174
Basic loss per share	\$ 0.01	\$ 0.01	\$ 0.01	\$ 0.02

The Company's third quarter loss (\$89,702) consists mostly of administration costs for the Company's offices in Vancouver and Peru, and is consistent with preceding quarters.

The Company's second quarter loss (\$43,569) includes a non-recurring expense recovery of \$42,047 for reversal of an accrual of Peru property maintenance at the end of 2011.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

### Financial Condition, Liquidity and Capital Resources

The Company is not in commercial production on any of its mineral properties and accordingly, it does not generate cash from operations.

New Oroperu's cash position decreased by \$121,88 since December 31, 2011. In the past 12 months, New Oroperu's only source of cash was from the \$175,000 (net) property option payment it received from Barrick in regard to the Tres Cruces project.

The Company's total cash position at September 30, 2012 was \$54,636 (2011-\$293,429). The current cash position will not be sufficient to meet property maintenance and corporate operating requirements for the ensuing year, without the infusion of additional capital. The Company is currently considering its options with respect to additional financing.

At September 30, 2012 the Company held the majority of its cash in U.S. dollars. New Oroperu's working capital position at September 30, 2012 was \$73,403 (2011 - \$295,676).

The Company is dependent on raising funds through the issuance of shares, obtaining debt financing, receiving its annual option payment from Barrick, and/or attracting joint venture partners in order to undertake further exploration and development of its mineral properties. Management believes that additional financing is available and may be sourced when needed to allow the Company to continue its planned activities in the normal course. There can, however, be no assurance the Company it will be able to raise funds in the near future.

### Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet financing arrangements.

### Outstanding Share Data

There are 16,398,318 shares of the Company outstanding as of the date of this report.

The following stock options are outstanding as at September 30, 2012::

No. of Options	Price per Share*	Expiry Date
65,000	\$1.00	January 29, 2013
1,200,000	\$0.45	October 5, 2015
1,265,000		

\* In CAD funds.

On October 26, 2012, the Company granted 2,000,000 stock options to directors, officers and employees. The options are exercisable at \$0.50 per share for five years, subject to regulatory approval, which is still pending.

### Related Party Transactions

Key management personnel compensation consists of the Chief Executive Officer and Chief Financial Officer. Aggregate compensation consists of the following at September 30, 2012:

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

<i>For the nine months ended September 30</i>	<b>2012</b>		2011	
Short term employee benefits	\$	<b>165,885</b>	\$	173,391
Share-based payments		<b>15,856</b>		145,317
	\$	<b>181,741</b>	\$	318,708

### Proposed Transactions

There are no proposed transactions at this time.

### Management of Capital

The Company manages its cash, common shares and stock options as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to maintain and pursue the development of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. The Company does not have any externally imposed capital requirements to which it is subject.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue debt, or may acquire or dispose of assets or adjust the amount of cash and cash equivalents.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

The Company does not expect to pay out dividends in the foreseeable future. The Company's investment policy is to keep its cash on deposit in an interest bearing major Canadian chartered bank account.

The current cash position may not be sufficient to meet property maintenance and corporate operating requirements for the ensuing year, without the infusion of additional capital. The Company may seek additional financing during the year as required.

### Financial Instruments

The Company has classified its cash and cash equivalents as held-for-trading; and trade payable and accrued liabilities, as other financial liabilities.

#### *Fair value*

The carrying values of cash and cash equivalents and trade payables and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

The Company's risk exposure and the impact on the Company's financial instruments are as follows:

#### a) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

The Company is exposed to concentration of credit risk with respect to its cash and cash equivalents; however, the risk is minimized as cash and cash equivalents are placed with major Canadian financial institutions.

The Company's concentration of credit risk and maximum exposure thereto is \$54,636.

### b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient assets to meet liabilities when due. As at September 30, 2012, the Company has working capital of \$73,403 (2011- \$295,676). As at September 30, 2012, the Company has trade payables and accrued liabilities of \$12,377 which are due in the normal course of business.

### c) Market Risk

Market risk is the risk that the fair value of or future cash flows from the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign currency rates and equity prices. Management closely monitors individual interest rate and foreign currency movements to determine the appropriate course of action to be taken by the Company.

### d) Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company is not exposed to significant interest rate risk.

### e) Foreign currency risk

As at September 30, 2012, the majority of the Company's cash and cash equivalents and trade payables and accrued liabilities are denominated in U.S. dollars, the value of which is subject to fluctuation in exchange rates. Cash held in Canada and Peru in US dollars amounted to \$45,208 (2011 - \$157,850) at September 30, 2012.

	Cdn
Cash and cash equivalents	\$ 8,660
Trade payables and accrued liabilities	(12,052)
Net foreign exposure	\$ (3,392)

The Company does not utilize derivatives or other techniques to manage foreign currency risk.

Based on the above net foreign currency exposure as at September 30, 2012, and assuming all other variables remain constant, a 10% weakening or strengthening of the US dollar against the Canadian dollar would result in an increase/decrease of approximately \$866 in the Company's loss.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

f) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to any significant price risk.

### Risk Factors

Companies operating in the mining industry face many and varied kind of risks. Following are the risk factors most applicable to the Company.

#### *Industry*

Exploring and developing mineral resource projects bears a high potential for a variety of risks. Additionally, few exploration projects successfully achieve development due to factors that cannot be predicted or foreseen. Moreover, even one such factor may result in the economic viability of a project being detrimentally impacted such that it is not feasible or practical to proceed.

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

#### *Metal Prices*

The principal activity of the Company is the exploration and development of gold resource properties. The feasible development of such properties is highly dependent upon the price of gold. A sustained and substantial decline in commodity gold prices could result in the write-down, termination of exploration and development work or loss of its interests in identified resource properties. Although such prices cannot be forecasted with certainty, the Company carefully monitors factors which could affect gold commodity prices in order to assess the feasibility of its resource projects.

#### *Political Risk*

The resource properties on which the Company is pursuing its exploration and development activities are all located in Peru, South America. While the political climate is considered by the Company to be stable, there can be no assurances that this will continue indefinitely. To alleviate such risk, the Company funds its Peru operations on an as-needed basis. The Company does not presently maintain political risk insurance for its foreign exploration projects.

#### *Environmental*

Exploration and development projects are subject to the environmental laws and regulations of the country within which the Company is conducting its operations. As such laws are subject to change, the Company carefully monitors proposed and potential changes and management believes the Company remains in compliance with current environmental regulations in the relevant jurisdictions.

Based on management's knowledge of and experience in the financial markets, management does not believe that the Company's current financial instruments will be materially affected by credit risk, liquidity risk or market risk.

# NEW OROPERU RESOURCES INC.

## MANAGEMENT DISCUSSION & ANALYSIS For the nine months ended September 30, 2012 (Expressed in US dollars)

### Disclosure Controls and Procedures

Management is responsible for the design, establishment and maintenance of disclosure controls and procedures over the public disclosure of financial and non-financial information regarding the Company and internal control over financial reporting to provide reasonable assurance regarding the integrity of the Company's financial information and reliability of its financial reporting. Management maintains appropriate information systems, procedures and controls to ensure integrity of the financial statements and to ensure that information used internally and disclosed externally is complete and reliable.

### Corporate Governance

Management of the Company is responsible for the preparation and presentation of the interim and annual consolidated financial statements and notes thereto, MD&A and other information contained in this MD&A. Additionally, it is management's responsibility to ensure the Company complies with the laws and regulations applicable to its activities.

The Company's management is held accountable to the Board of Directors ("Directors"), each member of which is elected annually by the shareholders of the Company. The Directors are responsible for reviewing and approving the annual audited consolidated financial statements and MD&A. Responsibility for the review and approval of the Company's unaudited interim consolidated financial statements and MD&A is delegated by the Directors to the Audit Committee, which is comprised of three directors, two of whom are independent of management. Additionally, the Audit Committee pre-approves audit and non-audit services provided by the Company's auditors.

The auditors are appointed annually by the shareholders to conduct an audit of the consolidated financial statements in accordance with generally accepted auditing standards. The external auditors have complete access to the Audit Committee to discuss the audit, financial reporting and related matters resulting from the annual audit as well as assist the members of the Audit Committee in discharging their corporate governance responsibilities.

### FORWARD-LOOKING STATEMENTS

Some of the statements in this document constitute "forward looking statements". Where New Oroperu expresses an expectation or belief as to future events or results, including management plans and objectives, and projections of exploration results, such expectation or belief is expressed in good faith and is believed to have a reasonable basis. The Company makes no representation that reasonable business people in possession of the same information would reach the same conclusions. While these statements represent our best current judgment, they are subject to risks and uncertainties that could cause actual results to vary, the specifics of which are detailed in disclosures with the heading "Risk Factors" in the Company's periodic filings with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Forward-looking statements in this MD&A are made as of the date of this MD&A or, in the case of documents incorporated by reference herein, as of the date of such documents, and New Oroperu does not assume the obligation to update any forward looking statement.
